Summary

I'm a passionate Cross-Platform Application Developer based in Pune, India. My coding journey kicked off at the age of 19, and since then, I've been on an exciting adventure contributing to diverse projects and startups. Committed to staying at the forefront of innovation, I'm an open learner, always ready to dive into new technologies. I consider myself a perpetual student in the coding universe.

Work Experience

1. Full Stack Developer (remote part time internship)

MyLegacyBox (Formerly Oiconomos), India

Duration: 2 years (1 June 2023 - 31 May 2025)

Lead the development efforts for the MyLegacyBox app - an innovative solution for personal finance succession management. Conducted technical research for optimal technology selection according to the requirement.

2. Full Stack Developer (remote part time internship)

SystemOnSilicon Corporation, USA

Duration: 6 months (1 January 2023 – 30 June 2023)

Was involved in conducting UI / UX research for ongoing projects. Developed apps in domains like AgriTech and HealthTech.

Projects

1. MyLegacyBox App

https://play.google.com/store/apps/details?id=com.oiconomos.www&hl=en_IN

One-stop solution for personal finance succession management. It provides a secure platform to gather and store personal financial information in a single place so that you can easily access and retrieve information on the go.

2. MyLegacyBox Website

https://www.mylegacybox.in

An initiative aimed at helping everyone stay organized with their personal finances and ensuring that no family is deprived of their rightful funds.

3. ContainRX

https://github.com/shaasium/containrx

Open-source, modular, and self-hosted web-based application that provides developers, DevOps engineers, and system administrators with an intuitive interface for managing containerized applications.

4. ReadersDen

https://github.com/tanmayvaij/readersden-stack

An open platform for books distribution and renting, developed in graduation under the subject Environmental studies, for the topic sharing economy.

5. Vignette Clone

https://github.com/tanmayvaij/vignette_clone

A clone of a vignette website, developed for an internship technical round
